

GEOGRAPHY

Key Stage 4

At Key Stage 4 Students will study the WJEC Geography qualification. Students can opt to choose History or Geography or choose to take both, as they are normally in different option blocks. These are both popular subjects and equip students with many transferable skills that will support their other studies. Over the course of our two week timetable, students will have 6, 50 Minute lessons.

Both History and Geography study WJEC Specification A, which links below to all relevant information:
